Topics of research in Dr. Elmore’s team include:
cancer screening
diagnostic accuracy
medical technology
medical education
computer image analyses
machine learning
health IT and OpenNotes
patient engagement
health care delivery

Dr. Joann G. Elmore is a newly recruited professor of medicine in the Division of General Internal Medicine, in the Department of Medicine at the David Geffen School of Medicine at UCLA. She is a national leader in academic general internal medicine and has had a distinguished career as an investigator, mentor, administrator and educator, joining us from the University of Washington in Seattle in Nov 2017. Dr. Elmore’s research has consistently addressed questions that push the boundaries of our scientific knowledge. Her research is well funded (e.g. multiple new 5-year RO1s from NIH and foundation support). As she is new to UCLA, she needs to hire a full team.

Send cover letter and resume to Cristina Punzalan, MPH at the UCLA National Clinician Scholars Program, cpunzalan@mednet.ucla.edu or apply directly at the links above.
