Forensic Medical Evaluation Training
Sat. 9/22 • 8:30a-4p
UCLA Geffen Hall B36

Hosted by the
DGSOM Asylum Clinic & OVMC Human Rights Clinic

Learn to perform medical forensic evaluations for clients seeking asylum and join a clinic to put these skills into action!

Training components include:
1. An introduction to asylum law and updates on new legislation impacting asylum applicants
2. Detailed instruction on how to conduct physical and psychological evaluations and document the sequelae of torture and other forms of persecution
3. An overview of the U.S. immigration detention system and a discussion on issues affecting the health of detained immigrants

The training is open to graduate students and health care professionals from all backgrounds

Light Breakfast and Lunch will be provided
