FALL SYMPOSIUM
“A NEW VISION OF CNS ACTIVITY”
THURSDAY, SEPTEMBER 27, 2018
NRB AUDITORIUM

SPEAKERS INCLUDE:

1:00 P.M.  PAUL MICEVYCH, PhD
Distinguished Professor & Chair
Department of Neurobiology
“Introduction”

1:10 P.M.  STEVEN BARNES, PhD
Professor
Departments of Ophthalmology, Neurobiology
"With no direct input, hybrid actions of GABA mediate feedback to mammalian photoreceptors”

1:50 P.M.  PARAG GAD, PhD
Assistant Researcher (Edgerton lab)
Department of Integrative Biology & Physiology
“Let’s turn ON the sleeping spinal cord”

2:30 P.M.  BREAK & REFRESHMENTS

2:45 P.M.  AWARDS

2:50 P.M.  SOTIRIS MASMANIDIS, PhD
Assistant Professor
Department of Neurobiology
“The neural dynamics of anticipation”

3:30 P.M.  DARIO RINGACH, PhD
Professor
Departments of Neurobiology, Psychology
“Population coding in primary visual cortex”

4:10 P.M.  BALJIT KHAKH, PhD
Professor
Departments of Physiology, Neurobiology
“Astrocytes and neural circuits: an update”

RECEPTION TO FOLLOW
