Get a Picture of Your Child's Brain!

Be a part of a major new study on brain connections in child development! The Human Connectome Project - Development (HCP-D) study is enrolling kids (ages 5-7) to discover how different parts of a child's brain are connected and how these connections change as the brain develops.

What will participants do?
There are two study visits. During these visits you and your child will be asked to:

• Complete interviews
• Fill Out Questionnaires
• Play Brain Puzzles
• Give Saliva
• Undergo a safe, non-invasive MRI scan

How do I enroll?
If interested, please contact us:
UCLA HCP-D Study Phone: (310) 794-0077
Email: HCP@mednet.ucla.edu
For more info, visit:
www.humanconnectome.org/HCP-D

* Receive up to $250 in gift cards for participating in the study
   Kids also receive up to $30 in gift cards
