TILLEY FAMILY SCHOLAR
MILITARY & VETERAN FAMILY WELLBEING
PROJECT GRANTS

2 YEAR GRANTS TO UCLA FACULTY, STAFF, AND STUDENTS
MAY RANGE IN AMOUNT, FROM $5,000 TO $25,000 PER YEAR

Grants would support scholarship around military and veteran family wellbeing. Areas of project exploration could include innovative programming, interdisciplinary research initiatives, collaborative leadership, and community partnership.

JULY 27: APPLICATION RELEASED
AUGUST 10: APPLICATION DUE
AUGUST 28: SELECTIONS ANNOUNCED

SUCCESSFUL UCLA GRANTEES WILL:
• Focus on innovative ideas that impact military and veteran family wellbeing
• Create partnerships with community organizations that advance mental health and wellbeing for military and veteran families
• Further multidisciplinary collaborations on campus that support military and veteran families
• Provide recommendations for improved wellbeing outcomes for military and veteran families/children

AREAS OF POSSIBLE EXPLORATION MAY INCLUDE:
• Teledelivery modalities and innovations in access to behavioral health care
• Peer based modalities
• Veteran families (focuses include single parents, relationships, and access to behavioral health care and the arts)
• Impact of systemic racism and health disparities on military and veteran families
• Trauma and resilience informed practices
• Strategies for addressing moral injury
• Innovations in mobile applications and other technologies for service delivery and support
• Service organization structures and boundary spanning (focuses include organizational wellness and resilience frames, public administration, and community impact models)
• Intergenerational issues in behavioral health care
• Impacts of current COVID-19 challenges on veterans and families

SELECTED GRANTEES WILL:
• Present their work at one campus/community dissemination event
• Participate in a mid-project and end-project meeting
• Provide a one page recommendation summary based on the project outcomes for distribution
