The Larry Hillblom Islet Research Center, UCLA Virtual Visiting Professor Program Presents:

Role of RNA processing in islet function and diabetes

Thursday, September 17th, 2020 via Zoom at 12:00pm

Speakers:
Lori Sussel, PhD
Professor, Pediatrics and Cell & Developmental Biology
Sissel and Findlow Family Chair
Director of Basic and Translational Research
Barbara Davis Center for Diabetes
University of Colorado Anschutz Medical Campus

**All series events will be hosted via zoom Meeting ID: 999 6499 2979 & Password: 174898**

### 2020 Upcoming Seminar Speakers

**Thursday, October 1st**

8am-9am

**Jakob Grunnet Knudsen, PhD**

*University of Copenhagen, Denmark*

*Adjunct professor*

**Thursday, October 22nd**

12pm-1pm

**Doug Melton, PhD**

*Harvard University; Howard Hughes Medical Institute*

*Co-Director, Harvard Stem Cell Institute*

**Thursday, October 29th**

12pm-1pm

**Andrew Miranker, PhD**

*Yale University*

*Professor of Molecular Biophysics, Biochemistry and Chemical and Environmental Engineering*

**Thursday, November 5th**

12pm-1pm

**Leslie Satin, PhD**

*University of Michigan*

*Professor of Pharmacology and Internal Medicine*

### 2020 Prior Seminar Speakers

**You are what (and when) you eat: role of circadian system in glucose homeostasis**

**Thursday, September 10th**

**Aleksey Matveyenko, PhD**

*Mayo Clinic - Islet Regeneration Lab*

*Molecular Physiologist; Associate Professor*

**Epigenetic regulation of functional beta cell mass**

**Thursday, September 3rd**

**Sangeeta Dhawan, PhD**

*City of Hope*

*Assistant Professor, Dept. of Translational Research & Cellular Therapeutics*

**Mitochondrial dynamics and bariatric surgery as modulators of beta cell function in vivo**

**Thursday, August 27th**

**Guy Rutter, PhD**

*Imperial College London School of Medicine*

*Chair in Cell Biology and Head of Cell Biology and Functional Genomics*

**Teaching mice and pigs and humans new tricks: experimental paradigms for islet biology and diabetes research**

**Thursday, August 20th**

**Seung Kim, MD, PhD**

*Stanford University School of Medicine*

*Director, Stanford Diabetes Research Center*

**Enhancing functional beta cell mass and cardiac function by targeting prostaglandin E2 receptors**

**Thursday, August 13th**

**Maureen Gannon, PhD**

*Vanderbilt University Medical Center*

*Associate Dean for Faculty Development*

**Outliers and Immune Tolerance**

**Thursday, August 6th**

**Mark Anderson, MD, PhD**

*University of California, San Francisco (UCSF) School of Medicine*

*Director, Medical Scientist Training Program*

**Beta cells and the Immune system – a Misguided Dialog in Type 1 Diabetes**

**Thursday, July 30th**

**Decio Eizirik, MD, PhD**

*Universite Libre de Bruxelles (ULB), Belgium*

*Director of the ULB Center for Diabetes Research*
