The Larry Hillblom Islet Research Center,
UCLA Virtual Visiting Professor Program Presents:

Tough decisions in pancreatic progenitors: reading cues from neighboring cells and from the extracellular matrix as determinants of endocrine differentiation and function

Thursday, December 3rd, 2020 via Zoom
at 12:00pm

Speakers:
Vincenzo Cirulli MD, PhD
Associate Professor
Institute for Stem Cell & Regenerative Medicine - University of Washington

2020 Upcoming Seminar Speakers

- **Date TBD**  
  Kevan Herold, MD  
  Yale University

- **Date TBD**  
  Michael German, MD  
  Diabetes Center at UCSF

- **Date TBD**  
  Michael A. Weiss, MD, PhD  
  Indiana University

2020 Prior Seminar Speakers

- **Fecal microbiome transplantation halts progression of type 1 diabetes in a randomized clinical trial**  
  Thursday, November 12th  
  Bart O. Roep, PhD  
  City of Hope

- **Mechanisms of Pulsatile Insulin Secretion: Twists and Turns**  
  Thursday, November 5th  
  Leslie Satin, PhD  
  University of Michigan

- **Dynamic properties of multi-state IAPP oligomers inside and outside B-cells**  
  Thursday, October 29th  
  Andrew Miranker, PhD  
  Yale University

- **New Beta Cells for Diabetes Therapy**  
  Thursday, October 22nd  
  Doug Melton, PhD  
  Harvard University; Howard Hughes Medical Institute

- **Metabolic control of glucagon secretion**  
  Thursday, October 1st  
  Jakob Grunnet Knudsen, PhD  
  University of Copenhagen, Denmark

- **Role of RNA processing in islet function and diabetes**  
  Thursday, September 17th  
  Lori Sussel, PhD  
  University of Colorado Denver

- **You are what (and when) you eat: role of circadian system in glucose homeostasis**  
  Thursday, September 10th  
  Aleksey Matveyenko, PhD  
  Mayo Clinic - Islet Regeneration Lab

- **Epigenetic regulation of functional beta cell mass**  
  Thursday, September 3rd  
  Sangeeta Dhawan, PhD  
  City of Hope

- **Mitochondrial dynamics and bariatric surgery as modulators of beta cell function in vivo**  
  Thursday, August 27th  
  Guy Rutter, PhD  
  Imperial College London School of Medicine

- **Teaching mice and pigs and humans new tricks: experimental paradigms for islet biology and diabetes research**  
  Thursday, August 20th  
  Seung Kim, MD, PhD  
  Stanford University School of Medicine

- **Enhancing functional beta cell mass and cardiac function by targeting prostaglandin E2 receptors**  
  Thursday, August 13th  
  Maureen Gannon, PhD  
  Vanderbilt University Medical Center

- **Outliers and Immune Tolerance**  
  Thursday, August 6th  
  Mark Anderson, MD, PhD  
  University of California, San Francisco (UCSF) School of Medicine

- **Beta cells and the Immune system – a Misguided Dialog in Type 1 Diabetes**  
  Thursday, July 30th  
  Decio Eizirik, MD, PhD  
  Universite Libre de Bruxells (ULB), Belgium
